

Welcome to the 9th Plenary Workshop of the Muon $g - 2$ Theory Initiative

University of Connecticut

Thank You, Tom Blum!

Tom did most of the hard work organizing this workshop. To name a few:

- Assembling the badges
- Buying the cookies and donuts
- ...and a lot of other things

Tom even hosts a few senior researchers in his own house!

Financial Support

Tom also applied for many financial supports for the workshop:

- **\$5K** — UConn Physics Department
- **\$5K** — UConn College of Liberal Arts and Sciences (CLAS)
- **\$15K** — Department of Energy (DOE)

Thank all these sponsors! The funds make it possible for us to provide financial support for some of our **early career researchers**.

U.S. DEPARTMENT
of **ENERGY**

More Thanks

- The **Muon $g - 2$ Theory Initiative Steering Committee**
— for arranging the agenda of the workshop and a lot of great advice
- **Adam Kolano**, Financial Assistant of the department
— for handling many tasks such as booking catering, accommodation, posters, etc.
- **Michael Rozman**, Computer Engineer of the department
— for creating our website

Thank all our participants for coming to the University of Connecticut.

Hope we will have a successful workshop!
